

# PRODUCT CARE INSTRUCTIONS

Avoid more than  
60°C/140°F of hot water.

Do not wash with  
dirty or colored  
clothings.

Do not use fabric  
softeners, bleach or  
anti-static agent.

Please wash your  
Nefful clothing before  
you wear them.

## Washing Instructions

1. Use a standard washing machine (22 lbs. or larger for domestic use) or wash by hand if you prefer.
2. Use laundry bag(s) for the wash cycle.
3. Wash in cold water with a low setting and with like colors. (Piling of the fibers may occur after washing, but this will not affect the quality of the product).
4. Lay it flat on a towel and stretch it to the correct size and shape before setting to dry.
5. Air dry naturally by laying over a clothes line, flat surface, or drying rack with netting.
6. While still wet or damp, comb the material in the right direction with a soft brush to maintain the smooth texture.

## Precautions

1. Avoid industrial, commercial, or dry cleaning machines and all Laundromat dryers.
2. DO NOT DRY NEORON/TEVIRON PRODUCTS WITH A HOME DRYE, LAUNDROMAT DRYERS, OR ANY ADDED HEAT DEVICES SUCH AS AN IRON OR STEAM CLEANER.
3. Do not use fabric softeners (they can interfere with static dispersion).
4. Do not use bleach.
5. Do not iron.
6. In order to maintain the durability of our products, use a laundry net when washing your Nefful clothing and bedding.

★ **Nefful USA recommends using Nature's Clean All Natural Biodegradable Laundry Detergent for all your laundry needs.**
